Details of my Koala sighting

Date koala sighted *

Time koala sighted *

Recorded by *

Species name * Phascolarctos cinereus

How many individuals did you see here?

How would you describe the area the koala was in?

Can you identify the tree species the koala was in? (if not in tree, please describe the situation)

Could you tell the gender/status of the koala?

Did it appear sick or injured?

How often do you see koalas here?

Do you have any other comments?

Observer's name (if not the recorder)

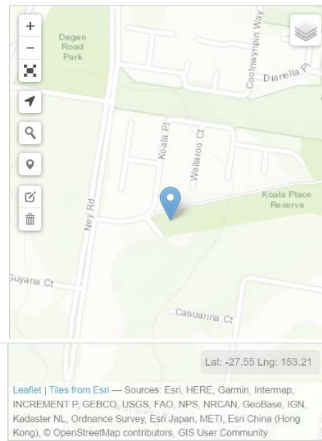

Please upload one or more of the best images of your sighting. This is strongly recommended so that the record can be validated and used in scientific work.

Sighting photo Or, drop images here
