

See science in action in Ormiston

FREE
community
event

Meet koala detection dogs and see how technology can help our koalas. Learn how you can make a difference to our local natural environment or join one of our volunteer programs. Have a chat to our officers about bushcare, wildlife, schools and environmental partnerships programs, and chat to Redlands After Hours Wildlife Ambulance volunteers.

**Sunday 23 June, 2019
9am – 12.30pm**

**Ormiston State School
School Hall,
entry via Dundas Street, Ormiston**

9am: Meet the dogs

Maya and Baxter

See koala detection dogs in action, learn how they locate koalas and maybe give them a pat.

10am: Presentation & talk

Drones, apps & other things

Check out how technology is helping University of Sunshine Coast researchers find and monitor Ormiston koalas.

Ormiston koalas

Find out what makes our koalas so special and what the genetic research is telling us.

Citizen science: your contribution

Find out how you can get involved.

11.30am: Eat & mingle

Join us for a sausage sizzle lunch

12.30pm: Koala spotting

- Bring your walking boots and come koala spotting*.
- Learn how to identify koala trees in your neighbourhood.
- Remember your hat, sun-smart clothing and water

As part of Redland City Council's ongoing Koala Conservation Program, the Ormiston Koala Safe Neighbourhood project is a community collaboration designed to protect and enhance koala habitat, and improve koala survival.
